# About Shyh Ru

Shyh Ru Metallic Industrial Corp. was founded in 1968, with the aim and aspiration to produce user friendly Cash boxes for customers in Taiwan. At that time, the portable cash box market was dominated by Japanese brands. To build a presence and reputation in the local market, Shyh Ru launched a small range of cash boxes. Shyh Ru promptly started taunting bigger brands with its determination and growing market share.

In 1984, Mr. Tai-Ho Chang, general manager of Shyh Ru, made a bold and wise decision to go international. In order to meet clients' unique and particular requests and needs, Shyh Ru developed several products in addition to its flagship cash box product. Shyh Ru has since been growing and expanding steadily and today offers a wide range of quality products such as key boxes, mail boxes, seal boxes and customized solutions.

In 1999, Shyh Ru received ISO-9002 product quality certification and ISO-14001 environmental management certification. These certificates are an embodiment and reflection of Shyh Ru's commitment to quality first and customer foremost. Shyh Ru is motivated to continue honoring its promises and commitment to produce high quality products beyond requirements of the ISO certificates.

In recent years, Shyh Ru has focused on research and development to produce new and innovative products for its clients, while at the same time enhancing its quality standard. To ensure the highest possible security for its clients, features utilizing state of the art technology such as alarm systems and digital keypads are built and incorporated into Shyh Ru's latest models of the cash boxes and key boxes.

With its exemplary quality, first rate service and product warranty, Shyh Ru has established its reputation as a reliable and excellent manufacturer on the global market, selling to over 30 countries around the world. To better serve its clients, Shyh Ru will continue to innovate and enhance its brand name and presence in international markets.

# CLASSIC SERIES

- \* Built for Durability and Safety
  - Secure cylinder lock with 2 keys included
  - Heavy gauge seamless steel for protection and to last longer
  - Durability demonstrated in intense stress testing
- \* Sleek, modern and comfortable Design and robust Quality
  - Recessed handle for easy storage
  - Powder-coated finish for smoothness and enhanced scratch resistance
  - High quality partitioned plastic inner tray for coins and bills
  - All products are individually shrink wrapped and packed in a color box to ensure maximum protection.
